MEET2WIN 3rd edition will take place in May 11th and 12th 2017 in Bordeaux which is an oncology business convention focusing on open innovation, collaborative research and technology transfer. Up to 250 stakeholders in innovation in oncology are expected. The business convention will be held at the same time than the international board of MATWIN, a unique accelerator platform for research projects around oncology innovation.

Your participation will grant you access to:

- identify partners from the innovation value chain
- promote a particular knowledge or expertise
- encourage collaborations between academics and industry players

B2B meetings are organised by Entreprise Europe South West to maximise your visit to the convention. They last 30 min between your organisation and a potential partner with an international exposure, giving you the opportunity to present your projects and the commercial or technological partnerships sought.

Over one and a half days, the business convention combines an exhibition area, conferences, round tables, elevator pitches and B2B meetings to network with potential business/technology partners around innovation in oncology:
HOW TO PARTICIPATE?

1. Register your organisation before May 5th 2017
2. Fill in the details about your organisation, expertise, projects and partnership types
3. Go through the participants list and check their profiles
4. Request and validate your meetings
5. You will receive your agenda one week before the event
